

Build a SAVE A DIVE KIT

This is a list of items that are a good idea to have in your kit. Of course you may delete and add any items in this list to meet your needs, but I have found out that if you are a dive leader (i.e. divemaster, assistant instructor, instructor or just the leader of your dive group), then most of these items are needed.

Recommended container: A medium to large tackle box or similar

Spare Parts

Mask Strap
Fin Strap
Knife Strap
